

## Attachment 1 – Authorization and Eligibility Requirements

### **Surface Water Diverter Compliance**

The Consolidated Irrigation District includes a surface water diversion. The Kings River Water Association (KRWA) oversees Kings River entitlements and water deliveries. There are 28 member agencies (or "units," as they are known) of the KRWA, which as its name implies, is a private association. All member units are public districts or private water companies. Consolidated Irrigation District (Consolidated ID) is a member unit of KRWA. Member units place water orders for Kings River water with KRWA, and KRWA coordinates releases from Pine Flat Dam and diverts water into the member units' distribution system at the canal headgates. All reporting of diversions and water use under the licenses is done by KRWA, the member units do not report directly to the State Board. The CID water diversions are reported under a Report of License through KRWA and are up to date. A screen shot of the State Board's website showing the submittal of the reports is included as **Attachment 1g**. Copies of the most recent reports can be viewed at here:
